

TECHNICAL DATA SHEET

Ki-Kleen

Concentrate Cleaner for aircraft cabins

DESCRIPTION

Ki-Kleen High Performance Cleaner is a multipurpose, aircraft-approved surface cleaner. It effectively tackles various types of dirt when diluted, and it is also available as a convenient ready-to-use spray and wipe-off product, which is streak-free and eliminates the need for rinsing after use. Ki-Kleen can be safely used in food preparation areas and is suitable for a wide range of materials including polypropylene, polyethylene, vinyl, plastic, aluminium, stainless steel, glass, Lexan, carpets, and man-made fabrics.

FEATURES & BENEFITS

- Concentrated formula with strong detergency that can be diluted with water for cost-effective cleaning.
- Low streak, spotless drying.
- Gentle on skin, non-toxic, safe for all cleaning and cabin crew
- Use naturally derived surfactants, sulphate-free, readily biodegradable.
- Non-flammable, Low VOC.

AIRCRAFT APPROVALS

- AMS 1550B
- Boeing D6-7127

DIRECTIONS FOR USE

Ki-Kleen is to be diluted with water from 1:99 to 1:19 (1% to 5%) depending on the level of grime. See guidance below for further instructions:

RECOMMENDED DILUTIONS:

- General hard surface cleaning: dilute at 1:30 to 1:40, with water.
- Heavy-duty cleaning: dilute at 1:19, with water.

Spray directly onto the surface and wipe clean using a dry, lint-free cloth. For stubborn areas, multiple applications with firm rubbing action may be necessary. Ensure all residue is wiped clean and avoid saturating the surface. For porous surfaces (PVC in kitchens), remove dirt with a soft brush. Rinse if surfaces are in direct contact with food.

TECHNICAL DATA SHEET

Carpet & Glass Cleaning: Ki-Kleen can be used for carpet and glass cleaning at a dilution of 1:50 to 1:99 with water if required. It is suggested, however, to use dedicated products such as **Aero Carpet Cleaner** and **Aero Glass Cleaner** for optimal performance in these areas.

ORDERING INFORMATION

Item Code	Size	Units/carton
9151/42	5L	4 x 5L
9151/51	20L	each
9151/64	200L	each

PHYSICAL PROPERTIES

Appearance: Light blue, transparent liquid
Density: 1.01 ± 0.05
pH: 7.0 +/- 0.5

STORAGE & DISPOSAL

Store in a cool, dry, ventilated place. Keep out of reach of children. Dispose of container in accordance with local regulations.
