## ROX® DIESEL EcoPlus effectiveness test

**Scope:** The scope of the trial was to measure the changes in fuel economy (expressed in fuel consumption) and Adblue consumption in a fleet of three trucks over the course of one month and a distance of just over 200,000 km.

**Results:** The results obtained at the end of the trial were then compared to existing data to provide a quantified figure for fuel and Adblue saving. The results are summarised below.

**Table 2:** Diesel consumption results from CHS Broadbent Trial

Identifier	Diesel Consumption Control (Litres/km)	Diesel Consumption Rox Diesel 9300C (Litres/km)	Fuel savings
Kenworth A	0.6514	0.6202	4.80%
Kenworth B	0.6965	0.6557	5.90%
Mack	0.6777	0.6444	4.90%
